January 2008

### **BRR Receives AIA KC “Intern Friendly Firm” Designation**

In January of 2008, the Kansas City Chapter of the American Institute of Architects (AIA/KC) designated BRR Architecture as an Intern Friendly Firm. BRR Architecture received this designation because we have established a formal in-house Intern Development Program (IDP) that focuses on helping our architectural interns begin and follow through on their path to architectural licensure. Our program provides all of our architectural interns a nurturing environment for training and opportunities to development their skills and prepare for the challenges of the practice of architecture in the future.

As an **Intern Friendly Firm**, we help each of our architectural interns obtain the experience and supplemental education they need to prepare for the ARE. In addition, we help them develop a broad range of competency, versatility and productivity that yield a strong, quiet confidence when exposed to the complexities of professional practice.

BRR Architecture believes that we have a responsibility to provide the training, experience and practice-based knowledge to the next generation of Architects. This belief makes us an AIA/KC Intern Friendly Firm.
